

WILCORP CONSULTANTS, LLC FIELD INVESTIGATOR TRAINING CURRICULUM

Our Field Investigator Curriculum covers a wide area of training in the private investigative field.

As of November 2023, our training runs 6-8 hours per day with access to hands-on learning five days per week for up to 10 weeks. Students can stagger their training and pick up where they left off.

In order for you to be a part of our instructional class at Wilcorp Consultants as a private investigator in training, you can apply as a student/trainee under a contract. You can stagger your days and choose the hours convenient to you.

You may have to make yourself available for some out of area work as field training is done while we work on real client cases.

This will allow you to receive experience/training on various levels of investigations and surveillance.

We will keep track of your progress as you work on areas of learning in which you would like to focus.

This curriculum covers the following areas of private investigators studies:

- > **Becoming a professional private investigator**
- > **Pretext (mingling, espionage)**
- > **Sub-Rosa (hiding in plain sight)**
- > **Interviewing witnesses**
- > **Tracking and locating witnesses**
- > **Skip trace**
- > **Hiding on the internet**
- > **Finding people on the internet**
- > **Investigations and its legal perspectives**
- > **Understanding the dark web**
- > **Social media, online searches and investigations**
- > **Identifying unknown individuals**
- > **How to preserve evidence**
- > **How to become invisible and stay that way**
- > **How to present evidence in court, etc.**
- > **Using everyday devices as spy tech**
- > **Inventing your own tech/equipment**
- > **Improvising as a field private investigator**
